We are also hoping to provide training to upskill all staff who are involved with the teaching of PE from teachers to teaching assistants in order to provide a coherent approach to PE where all staff feel confident in their ability to support children of all abilities. Our school values will also be important in the development of Sport and PE for example through the development of respect and honesty in sport. Children will continue to have opportunities to compete in Sport and to develop their enjoyment of leading a healthy, active lifestyle. We aim to provide a sustainable approach to teaching and learning to help instil a positive attitude towards healthy and active lifestyles amongst the children.
